

OUTDOOR LEGACY

vermobil®

This is a **tale of**
memories from the past
existing materials, aspiring to **new functions**
ancient manufacturing techniques
outdoor furniture **trends.**

We **shaped** them
to decorate outdoor spaces with **taste and care**
to welcome **guests**

that our legacy to future generations be only the nice things we've learned to make.

This is the **story** of a meeting between

Experience, Tradition and Contemporary Design

Mario

Patrick

This is the **tale**

of the **authentic Italian outdoor lifestyle** and its settings:

- . The Factory
- . Urban Landscapes
- . Our Fields
- . Our Games
- . The Banquet
- . The Shore

The Factory

Where everything started

Where metal becomes form

Where we learned how to make things properly.

Urban Landscapes

Chairs and tables on the streets

Part of the urban landscape

Our signature.

Melémí

Volée

Our Fields

Yellows, Greens and Browns blend together
Life began in a Garden
Respect and sustain.

Our Games

Smiles and shouts in the air
People around a table to play
And enjoy life.

The Banquet

Families and friends in the Piazza
Enjoy food and drinks to share
With a touch of Italian style.

The Shore

Sandy or rocky, all we need is the sea
Breathe and feel the sun on the skin
Dream of staying here forever
